# President's Letter

**Cherokee Camp Out** - One of the new events for 2004 is a camp out on Cherokee on Saturday June 5 at the May Springs campground on the North shore of Cherokee lake. This location was selected as the stripers should be in this area in early June. We have rented a pavilion and two adjacent camping spots on the lake so there will be plenty of room. We will kickoff this event with a round of fishing starting at 5 PM from the pavilion area. After fishing, we plan on having a pot luck dinner under the pavilion. We will have generator and plenty of lights to illuminate the area. The Allan Franklin Annual Kids Fishing Day will be held on the following morning from the same pavilion area.

**Open Fishing Days** - We are going to have an "Open Fishing Day" on the Saturday following each monthly meeting. We will announce the time and launch location in the monthly meeting. The first "Open Fishing Day" was on April 24 and we launched from the Oak Grove boat ramp at 4 PM. A total of five members participated and everyone seemed to have a good time. We fished in Rocky Hollow and the hybrids were quite active. Several fish were caught. Remember, this is not a TSBA sponsored event so it is open to members and nonmembers so bring your neighbors. We are just going to assemble at a certain spot and go out fishing together. The next Open Fishing Day will be on May 22.

**Business Cards** - We have received some business cards to place at various bait shops and retail outlets in our fishing area. Hopefully, they will result in a few new members. Everyone should carry some of them to pass out at the boat ramps to anyone who is interested in striper fishing.

**Boat Decal** - I am in the process of developing a TSBA decal for our boats. I plan to present my preliminary designs at the next meeting. The main problem has been finding a design of a striper that everyone likes and the artwork is good enough to make a sharp image when it is reproduced. It will be approximately 4" x 5".

## **President's Letter - Cont.**

### **Fish Hatchery Tour -**

The annual tour of the Eagle Bend Fish Hatchery is scheduled for Monday May 17 at 6 PM. The evening will start with pizza and soft drinks, followed by a short business meeting and then the tour. At this time of year, there should be both adult and baby stripers in the holding tanks. This has been a very popular event in the past, and we expect that this tour will be well attended. To get to the Eagle Bend Fish Hatchery, get off of I-75 at exit 122 and go west on highway 61. Turn left into the hatchery parking lot immediately after you cross the Clinch river. Please note that there will not be a meeting at Shoney's in May.

### **Allan Franklin Annual Kids' Fishing Day -**

The name of the Kids Fishing Day has been changed to the Allan Franklin Annual Kids' Fishing Day to recognize the work that Allan has done in promoting this event over the years. This year's event will be on Sunday, June 6, which is the day following the Cherokee Camp Out. We will launch from the pavilion that we have rented at the May Springs campground. Why not attend both events and make it a great weekend. Remember that there will be trophies and door prizes for all of the kids that participate in this event. In the past, all of the kids had a great time.

There are two changes that we are implementing for this year. The first is that we are going to require that the parents or guardians of each kid in the tournament sign a "Hold Harmless" agreement releasing the TSBA from any liability.

Next, we are going to require that everyone operating a boat with kids onboard must have either attended the April 19th meeting or they must certify that they have read the Tennessee Boating booklet published by the TWRA. The "Hold Harmless" form and the TWRA booklets will be available at the May 17th meeting at the fish hatchery. Also, call me at 865-471-1365 and I will mail you a copy. There will be no exceptions to either of these two new requirements.

*Bob Leach*

# Fishing Below Dams

I received the following warning via an E-mail from [www.tennesseesportsman.com](http://www.tennesseesportsman.com). It is quite timely considering that the fishing below the dams will pick up considerably as the weather gets warmer.

"A large amount of water can be discharged through a dam without warning at any time. For example, when the demand for electricity is high, the turbines that generate electricity at a dam may start automatically, resulting in a significant increase in the flow of water within only a matter of seconds. Similarly, river operations for flood control can create rapidly rising water levels in otherwise shallow riverbeds, especially below tributary dams, which are usually located in steep terrain.

The cold water released through tributary dams even during the summer may also be a hazard. Cold water temperatures can result in shock and hypothermia, and slippery rocks and hidden holes can cause an unexpected fall. Take special precautions when fishing below a dam by boat. The water can boil suddenly, trapping or capsizing unprepared boaters. **Always wear a Personal Flotation Device, and leave the motor running - even if drift fishing.** A stalled or hard-to-start motor can result in disaster. **Never anchor your boat in the area below the dam.** A sudden surge of water can pull a boat under and sink it before you have a chance to pull the anchor and move to safety. Stay out of restricted areas. Plan a quick exit from the water to the nearest bank in case of an emergency. Move to a safer area immediately if a siren sounds or strobe lights flash at dams equipped with these warning devices. **Wear your lifejacket and do not overload your boat."**

I would like to add one comment to the above and that concerns fishing below the dams when water is going over the spillways. **Don't do it - just turn around and go somewhere else.** Water going over the spillway adds an additional element of danger and it's not worth the additional risk.

Bob Leach

# Letter from the Vice President

## Nasty Weather

To follow the safety theme a bit further it is time to consider extreme weather conditions. It is not uncommon in East Tennessee to have Spring and Summer thunderstorms that can create extreme conditions on waterways. Sometimes these storms pop up with little or no warning. If you are boating in areas well known to you, it may not be a problem. If you venture to remote locations or new areas, it would be wise to take a few precautions.

First, have some means to contact help in case of an emergency. The modern day answer is the cell phone. Keep in mind that there are no cell towers in the lakes and in remote areas. Another option is a marine radio. If you are going to remote areas or to a new area, having both is a good idea. Cell phones can summon help from miles away if you can get a signal. Marine radios have a limited range but operate without any outside assistance (towers). You can usually get a message through to someone who can get help to you using one or the other.

Second, have some idea of an escape plan. If a storm pops up, where do you seek shelter - any port in a storm so to speak. Take a map, compass and/or GPS. I make a point to plot escape routes in good weather that I can use in less than perfect conditions. One nice feature on most good marine radios is a NOAA weather band. In extreme weather conditions these folks can pinpoint storms and give advanced warning of the storm's path. More than once I have been anchored up at night and been alerted to a storm coming. A few minutes listening to the NOAA folks can give me a clue as to the direction to take to get clear. I have used a marine radio for weather information at home during times when traditional weather sources are off due to power failure or satellite interference.

These items cost money but usually last a long time and pay for themselves over and over again in dangerous situations. Think about it.

*Felix*

# TSBA Camp Out on Cherokee June 4 & 5, 2004

Campsites are available on June 4 & 5. Check in on the 4th is 3pm & check out on the 6th is 12 noon. Tents and campers are welcome, you must call to reserve your spot. **Call Cathy Taylor @ 865-414-3024 by Wednesday May 25th.** The sites are located

at Greenlee Campground of May Springs and are provided by the TSBA. 1st call 1st reserve basis.

**TSBA Cookouts** - Friday the 4th & Saturday the 5th.

at the Pavillion beside the campsites.

Friday @ 7pm Hotdogs/Chips/Drinks

Saturday @ 7pm Hotdogs/ColdCuts/Chips/Drinks/Sweets

NOTE: Sat Lunch - CHILDREN ONLY - NOON @ Pavillion.

### **CHILDREN'S ACTIVITIES:**

Coverage for Children (7 yrs and up) will be Friday 5 -9pm & Saturday from 9am - 9pm. Under 7 must have parent or guardian present. Parent/Guardians leaving the Campground MUST inform Cathy prior to departure & upon return.

Children will need: Bathing suit, flotation device if needed, 2 tshirts, 2 shorts, pants, sweatshirt, sunscreen, hiking shoes, water shoes (optional), towel & something to keep all this in. DO NOT give them MONEY to keep up with PLEASE!

Bikes may be brought but events will not include bikes unless everyone has one to ride.

### **Events for Children Include:**

Swimming @ beach, Frisbie, kites, sack races, trail hiking, pinata bash, tye dying of tshirts, paddle boat rides, puzzles, movies (weather) Banner coloring, campfire pajama party with s'mores, popcorn, cotton candy & snow cones.

Sunday: No coverage during the fishing event! Gone fishing!!

# Letter from the Secretary

## ***TIME TO GO CATCHING!***

What happened to keeping it simple? Did you charge the crank, trolling, and bait tank batteries? Let's see now - where are the GPS and fish locators? Marine radio is set to what channel? A wireless sonar link - how many can I get! Electric trolling motor that's auto pilot and, what now, a built-in universal transducer - need that! A new transom mount trolling motor that rotates 180 degrees when you move it 60 degrees - gotta get it! Hook shape, hook color, hook size, lead sinker or tungsten sinker - too many choices. Underwater TV camera - sounds good to me. Wait a minute. STOP! STOP! Get out, enjoy the day, have fun. Take it as it comes. It's called fishing, not catching. **Quality time beats quantity of fish.**

*Dave Johnson*

## **Question of the Month**

What brand fishing reel do you use?

Ambassadeur - 10  
Shakespeare - 2  
Daiwa - 1  
Quantum - 1  
Cabella's - 1  
Shimano - 1

## **Mountain Lake Marina & Campground**

This month we are spotlighting another one of our fine sponsors - the Mountain Lake Marina & Camp Ground strategically located on beautiful Norris lake just 4.5 miles from I-75 exit 128. Mountain Lake is a full-service RV resort and marina with many amenities as shown on their website. Also, it was voted Tennessee's "Campground of the Year" for 2003 - 2004.

### **2004 Summertime Activities**

Starting in June and running through August, there will be a **Happy Hour** from 6 to 8 PM on Friday and Saturday nights - This means \$1 beer, free popcorn and music.

Other activities are listed below:

- June            Saturday 5th - Paddleboat Races
- Saturday 19th - Water Volleyball
- July            Saturday 10th - Paddleboat Races
- Saturday 17th - Mardi Gras
- Saturday 24th - Water Volleyball
- Saturday 31st - Community Yard Sale
- August        Saturday 7th - Luau

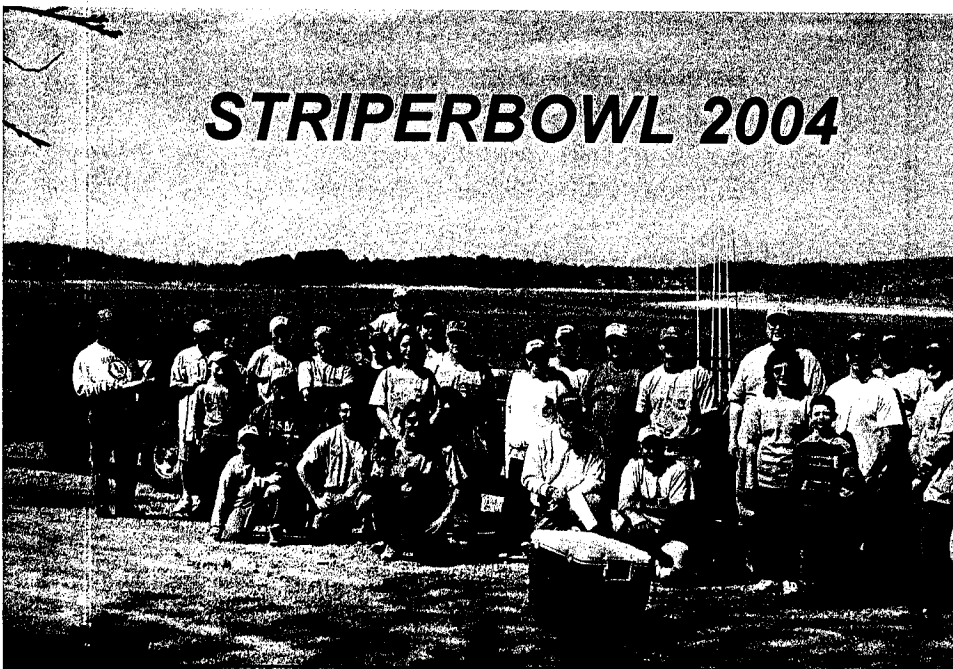

For 2004, the Mountain Lake marina owners, Miles and Jan Owens, have added brand-new 80'x16' houseboats for rent. These boats are fully-loaded, and they can be rented by the week, Monday-Thursday or for the weekend which is Friday through Sunday. Each boat has 6 private bedrooms, 2 full baths, a leather sleeper sofa, big screen TV, VCR, DVD, Play Station 2, GameCube, satellite radio, CD player, party top Flybridge, 6 person hot tub, tubular slide, marine radio, fully-equipped kitchen, smoothie maker, central A/C & heat, full-size dryer, 2 electric grills and patio furniture.

Call at 865-426-6510 or toll-free at 877-MTN-CAMP or go on-line at [www.mountainlaketennessee.com](http://www.mountainlaketennessee.com) for more information on their excellent Marina. You can also send them an E-mail at [mtnlaketn@aol.com](mailto:mtnlaketn@aol.com). Please support these nice folks and their excellent facility.

## **Tailgate Party - TSBA Style - April 17th**

Twenty TSBA members converged upon the Super 8 Motel in Morristown on April 17th for the TSBA Annual StriperBowl Tailgate Party! There were three StriperBowl cakes and soda drinks for everyone. The sunshine made for a nice evening of fish stories from the past and predictions of the future winner of the StriperBowl. The winners of the poetry contest were announced by Ezell Cox, our judge! Allan Franklin won the poetry contest and a \$30 gift certificate to Red Lobster. Amy Stevens won 2nd place and a \$15 gift certificate to Red Lobster. Scott "Skeeter" Copeland was awarded Honorable Mention for his poem about the shad. The winners read their poems out loud to the crowd. Congratulations to all and a big thank you to those who joined in the fun!

### **STRIPERBOWL 2004**

At the Tailgate Party Allan Franklin was honored for his efforts on behalf of the Kids Fishing Day event. He was given a plaque to announce the renaming of the Kids Fishing Day to the Tennessee Striped Bass Association Allan Franklin Annual Kids Fishing Day.

## **StriperBowl - TSBA Style - April 18th**

Thirty one TSBA members tried their luck at the 2004 StriperBowl. It was a great day and the weather was great! The fish however decided to enjoy the

***Toney Stevens  
Takes Home the Trophy  
for 2004!***

sunshine and fast for the day. Only 5 fish were brought to the scales. Two were Stripers and the other three were Hybrids. The trophy went home with Toney Stevens of Lake City. Toney weighed in one Striper and one Hybrid for a total of 21 pounds. Lisa Mann-Osborne weighed in two hybrids totaling

14.4 pounds. She took 2nd place for which she received a StriperBowl t-shirt. Phillip McClanahan weighed in one striper at 13.8 pounds.

# Boating & Fishing Safety Seminar

The primary focus of the TSBA April 19th monthly meeting was a seminar by Ken Cutsinger of the TWRA on boating & fishing safety. Ken did an excellent job, and I think we all found the meeting to be interesting and informative. We thank Ken for taking the time to prepare for and present this presentation. Here are some of the facts that were covered.

## **Boating under the Influence:**

- \* It is unlawful for anyone to operate a boat under the influence of alcohol or drugs.
- \* All persons operating a boat have given their implied consent to a sobriety test.
- \* The legal limit for your blood alcohol level is 0.1%

**Young Operators:** Persons under 12 years of age may not operate a boat unless accompanied by an adult who can take immediate control the vessel. There are some exceptions for boats with small motors.

**Reckless Operation:** Examples of reckless operation are:

- \* Operating a boat in a swimming area
- \* Riding on seat backs, gunwales, transoms or pedestal seats while moving above idle speed.
- \* Excessive speed in crowded areas, dangerous areas or during restricted visibility.
- \* Operating an overloaded vessel

**Owner's Responsibility:** The owner of a boat may be responsible for any injury or damage done by his or her boat whether or not the owner is present. This does not hold true if the vessel is used without the owner's consent.

**Accidents:** All accidents involving property damage in excess of \$500 must be reported to the TWRA within 10 days. All accidents involving death or injury requiring medical treatment must be reported within 48 hours.

**Guides:** Before a person may carry passengers for hire on the navigable waters of the United States, an appropriate license must be obtained from the Coast Guard. Only Type I PFD's are acceptable when carrying passengers for hire.

# Safety Seminar - Cont.

**Life Jackets Below Dams:** A US. Coast Guard approved PFD must be worn by each person on a vessel being operated within specifically marked areas below dams.

## **No Wake Areas:**

- \* Unless otherwise marked, all vessels operating within 300 feet of a commercial boat dock must do so at a slow wake speed regardless of whether or not the area is marked by buoys.
- \* "No Wake" is defined as a vessel traveling at or below idle speed or at such speed that the boat or its wake is not sufficient to cause possible injury or damage to other persons, boats or property.

## **Personal Flotation Devices (PFD):**

- \* All children under the age of 12 years of age are required to wear a Coast Guard approved life jacket if the vessel is under way. It is not required if the boat is anchored, moored or aground.
- \* You must have one wearable device of the appropriate size on board for each person in the boat or each person being towed.
- \* Each device must be readily available. It must not be hidden below deck or stored in plastic bags. They should be worn or close at hand where they can be reached quickly in an emergency.
- \* Each device must be Coast Guard approved and bear the approval stamp.
- \* Each device must be in good condition and be of an appropriate size for the person intended to wear it. The straps must be firmly affixed, there should be no rips, tears or holes which will affect the operating efficiency
- \* Ski belts are **NOT** on the approved list of flotation devices.

**Inflatable PFDs** - Some inflatable PFDs are acceptable provided it is Coast Guard approved as a type V and it is being worn.

These devices are not approved for persons under 16 years of age unless it is specifically stated on the manufacture's label.

Also, please remember that inflatable devices are slow to inflate in cold weather or water.

*Bob Leach*

# June Expectations

The reservoir stripers have finished the spawn run and continue to move slowly downstream as the thermocline gets deeper. Top water action is in the early morning or not at all, but a good fish finder will start showing the schools of stripers that are deep enough not to shy away from the boat. The confluence of the major creeks and old river channel near mid lake are good target areas. The large, shallow flats that transition quickly to deep water are also excellent places for stripers to hold. The stripers normally feed aggressively after the spawn is complete. Catch and release starts to become questionable this month; however, in the the tailrace and rivers below dams you will be able to release successfully during most of the early summer. The stripers will continue to migrate to the tailrace discharge the entire month of June and should be great by month end.

## Cumberland River Excursion

The first annual Cumberland River excursion was held over the weekend of May 1, and it was a huge success. Over 20 members from four states converged upon the Budget Inn in Carthage for some striper fishing on the Cumberland River both upstream and downstream from Cordell Hull Dam. Most of the stripers were caught just below the dam in the swift current. The action was fantastic on Friday afternoon, and everyone was catching one striper after another. I landed five and I had two more snap my 17 lb. test line - which was quickly changed to 25 lb. test line on Friday night. The fishing below the dam cooled off considerably on Saturday, and only the real "Below the Dam" pros were having any luck. One member caught 11 fish on Saturday, but a lot of us were skunked. Some members had a good day further downstream near the confluence of the Cumberland and the Caney Fork Rivers. Bait was fairly easy to catch at the dam. The shad were big and a lot of people were successfully angling for Skipjack. As far as I could tell, we were good stewards of the waters and the surrounding land as we left the area as we found it. Most, if not all, of the members released all of their fish. Almost everyone indicated that they would return in the future and that this was an excellent learning experience. In fact, there was some talk about planning another trip back to this area in the fall. The camaraderie was great and everyone seemed to enjoy seeing some of their long-lost buddies. Contrary to what the weather reports were indicating, the weather was fine on Friday and Saturday, but heavy rains did dampen some spirits on Sunday. Basically it was a fun trip and, if you weren't able to join us, then you missed out on a wonderful weekend. Don't miss the next TSBA event.

## Fishing Hot Spots

### **CHEROKEE LAKE: Good**

Point #1 at the dam upstream to Point #21 above the 25E bridge. Hybrids are more tolerant of the warm water and can often be caught in schools in shallow water. They can also be released normally without mortality. The humps in the middle of the lake near the dam usually become excellent.

### **NORRIS LAKE: Fair**

33 Bridge downstream to Point #19 on the Clinch side. Below Point #14 at Blue Springs downstream to Point #11 below Springs Dock on the Powell side. Look on the inside bends of the river and in front of the major coves with creek feeds.

### **BELOW FORT LOUDON & MELTON HILL DAMS: Good and Improving**

Many of the stripers will go upstream to the discharge at the dams. Put your sinker and hook close to the bottom with plans to lose a few for the most catches. Pulling side planer boards down the banks can also catch fish for miles downstream.

## **EAGLE BEND FISH HATCHERY TOUR & MONTHLY MEETING**

Join us on Monday, May 17, for pizza, drinks, monthly meeting, and tour of the Fish Hatchery - all beginning at 6:00 p.m.

The Fish Hatchery is located in Clinton just off Highway 61 between Highway 25W and the Clinch River on the east side of the street.
